Dear Bill:

This letter is confirmation of your reception of WGBI-AM on December 18, 1987.

To answer a couple of your questions concerning WGBI-AM:

WGBI-AM operates with 1000 watts daytime and 500 watts night power. When you received us we were at 500 watts.
WGBI-AM operates at 910 KHZ.
WGBI-AM's antenna height is approximately 250 feet above average terrain.
WGBI-AM operates 24 hours-a-day, 7 days-a-week.
WGBI-AM is affiliated with the CBS Radio Network.
WGBI-AM was founded by Mr. Frank Megargee on January 12, 1925, and has been family owned and operated since that date. Our studios are now located in downtown Scranton, Pennsylvania...at 417 Lackawanna Avenue. Our transmitter is located just off Davis Street, in the Minooka Section of Scranton.
WGBI-AM's format is "Light Country"...country music mixed with some light contemporary tunes.
WGBI-AM primarily serves the Wilkes-Barre/Scranton Market...which includes several counties in Northeastern Pennsylvania.
WGBI-AM has received confirmed reports from Arlington, Virginia, and Canton, Ohio, while at 500 watts. We received a DX from Finland while we were broadcasting at 500 watts. WGBI-AM must have a good night-time skip.

Thank you for inquiring about WGBI-AM.

Sincerely,

Hoyt H. Keiser, Jr.
